(Nov. 2002 – Dec. 2004)  
\$12,000,000 (combined)

Architects: Eric Hafer & Assoc.  
and Eiger Consultants  
Contractors: Norcon Inc.,  
Utica Inc., John O’Hara Co.

### Summary of Project and Services:

JS&A provided Owner Representative / Construction Management services for the planning, design and fit-up of instructional classrooms and labs in Health Care Administration, in existing schools of professional training. Each school is upgraded with a specialized laboratory and classroom teaching facility, with construction costs varying from \$300,000 to \$2,500,000 per location. Space size upgrades have ranged from 5,000SF to 40,000SF.

Services included project scope development, preparation of phasing and staging plans, cost estimating and scheduling, and continued through design phase coordination, general contract packaging, and construction oversight. Facilities completed are as shown on the map below.

*Wet Lab, Mt. Laurel, NJ*

*Allied Health Facilities*
