Franklin, NJ
 (July 2003 – Sept. 2005)
 \$54,000,000
 340,000 SF

Architect: Faridy Veisz, Fraytak
 Contractors: Multi-prime

Summary of Project and Services:

JS&A is providing Construction Management services for the development of a new, 2400 student, 340,000SF High School on a 100 Acre site in Franklin Township, Somerset, NJ. The design and construction is funded in part through the New Jersey School Financing Act of 2001, which is providing approximately 35% of the cost.

JS&A's role includes the management and coordination of a "multi-prime" contracting structure for the delivery of the High School facility – targeted for school opening in the fall of 2005. Services include all aspects of project and construction management including phasing and staging, cost control, schedule control, quality control, and field oversight on this major project.

The project has received recognition by McGraw Hill's NY Construction publication as one of the Metro NY/NJ region's "Top Projects" for 2004-2005.
