

March 2004

Building Exterior

Career Education Institute

Lincoln, RI
(Jan. 2004 - Dec.2005)
Construction Value: \$2,700,000
Interiors Construction: 42,000SF

Architect: Eiger Consulting
Contractor: Norcon Inc.

Summary of Project and Services:

JS&A provided Project / Construction Management oversight for this relocated and expanded school of professional training. The location of the facility, in an active retail mall complex required careful staging.

The interiors construction program included all aspects of interiors construction, including mechanical, electrical, and data distribution.

JS&A's services included scope, development, cost, schedule, and quality control through project planning, phasing and staging, design management and construction oversight.
